

# Okeechobee FLORIDA

CONCRETE ROOF TILE COLLECTIONS

Proudly Serving the Florida Market for over 60 Years

**Westlake**  
Royal Roofing Solutions™

# The Mastery of Manufacturing

We focus on the latest innovations in tile manufacturing. Our process is unique, providing pre-blended tile for the best roof aesthetic. With locations in Lake Wales, Okeechobee, and Pompano Beach we continue to maintain our commitment to our Florida customers.

Asphalt Shingle

**139°**

attic temperature

Concrete Tile

**94°**

attic temperature

# Why Tile?

## NATURAL PROTECTION

Attic temperatures measured using identical heat sources simulating the sun's radiation comparing Newpoint™ Cool Roof System to a common asphalt shingle installation. The result is less heat in the attic and lower energy bills.

# Material Matters.

## BEAUTY MATTERS

Our concrete tiles have texture and substance, creating a true multidimensional look for your roof. Their natural colorways harmonize easily with other exterior building elements.

## DURABILITY MATTERS

Newpoint™ engineered tile is specifically designed for new build and reroof, helping provide Floridians protection from the elements.

## VALUE MATTERS

Westlake Royal Roofing Solutions™ stands behind the quality of our roof tile with a Fully Transferable, Non-Prorated Limited Lifetime Warranty.

## SUSTAINABILITY MATTERS

Newpoint™ concrete roof tiles are locally made and sourced in Florida since 1958.

# Color Matters.

As the market leader, we strive to enhance the curb appeal of your home. We continuously develop new colors to harmonize with the shifting architectural trends in Florida. We take pride in the color quality and blending we provide.

# 3 STYLES

Newpoint™ concrete roof tile easily harmonizes with all three dominant architectural styles in Florida.

## TRADITIONAL

AMERICAN ADAPTATIONS OF REGIONAL HOME STYLES FROM OTHER TIME PERIODS OR AREAS OF THE WORLD. OFTEN MIXED REFERENCES.

MEDITERRANEAN  
TUSCAN  
WEST INDIES  
FLORIDA OLD STYLE  
FRENCH COUNTRY

## TRANSITIONAL

PREFERS THE CLEAN LINES OF CONTEMPORARY ARCHITECTURE, BUT DRAWS HEAVILY ON DETAILS AND STYLES FROM TRADITIONAL ARCHITECTURE.

RANCH / SPLIT LEVEL  
PRAIRIE STYLE  
MIXED LOOKS

## CONTEMPORARY

CHARACTERIZED BY A PREFERENCE FOR CLEAN LINES, OPEN CONCEPTS, DECORATION, AMPLE LIGHT SOURCES / LARGE WINDOWS, AND LACK OF ROUND FORMS.

MODERN  
MID-CENTURY MODERN  
CONTEMPORARY

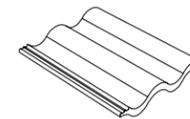

SLATE | Dark Charcoal Blend

## HIGH & MEDIUM TILE PROFILE COLLECTIONS

### ESTATE

You will often find this tile gracing the roofs of Mediterranean inspired homes. This lower profile boasts easy versatility for any style building.

P. 13

### GALENA

### DESIGNER PRODUCT

Galena profile displays hand-crafted characteristics, providing an ideal complement to Spanish architecture. Bridging the Old World look of yesterday with the durability of today.

P. 17

## LOW TILE PROFILE COLLECTIONS

### SAXONY® 900

#### Slate

Beautiful design representative of styles found in England, Northern Europe and the US Eastern Seaboard. Versatile enough to accentuate any architectural style.

P. 21

#### Split Slate

Unique beveled edges precisely define each tile for a staggered appearance, while its distinctive slate texture accurately reproduces the appearance of its natural counterpart. Two 90° angled cuts on nose.

P. 23

### PLANTATION

#### Slate Like

Unique beveled edges precisely define each tile for a staggered appearance, while its distinctive slate texture accurately reproduces the appearance of its natural counterpart. Two unique nose cuts 90° bevel and angled.

## Visualize

Picture your new roof with Newpoint™ Concrete Roof Tile Inspiration house photo gallery on our website.

Design your home with your dream roof by using our [Dream Home Visualizer](#). Upload your house image or use gallery images and the tool will auto-generate a rendering which you can use to try out different products in the design phase. Order Product Samples directly through the tool.

## Order A Sample

Deciding on the perfect roof can be overwhelming. So, instead of wondering what color or style will work, order a sample and take the guesswork out of your decision. It's just another way Newpoint™ Concrete Roof Tile makes it easy to buy with confidence.

## Architectural Tools

Our complete suite of architectural tools, including Arcat 3-Part Specs and CAD/BIM drawings, are available for download directly from our website.

## Online Ordering

Manage your orders through myWestlakeRoyal, a simple online tool to track product orders in real time, all from the convenience of your computer, tablet or smartphone. Sign-up for e-mail alerts to notify you of your order status.

## Limited Lifetime Warranty\*

As a brand you can trust, Newpoint™ Concrete Roof Tile offers one of the most comprehensive, fully transferable roofing warranties available on the market today.

## Follow Us On Social Media

See what everyone loves about Newpoint™ Concrete Roof Tile and get inspired on: Facebook, LinkedIn, YouTube, HOUZZ, Pinterest and Instagram.

**Code Approval:** Some approvals are regional and only apply to locally produced products; please contact Newpoint™ before transporting product across state lines. Specifically, products used in the Miami Dade County region of Florida require special testing and recognition. All tiles have systems that are Class A fire rated.

**Disclaimer:** The printed colors shown in this brochure may vary from actual available tile colors. Before making a final selection, be sure to review actual tile samples and roof installations. Please contact your local sales office for further assistance. Inadvertent errors in this publication are subject to change without notice. No performance guarantee is offered or implied beyond that expressly indicated.

Efflorescence is a temporary surface condition which is common to all concrete products. The process is caused by the chemical nature of cement. This reaction can appear as an overall chalky white bloom (a softening of color) or in more concentrated patches. It is difficult to predict how long the effects of efflorescence will last. It depends on the type and amount of deposit as well as local weather conditions. The action of carbon dioxide and rainwater will gradually remove the deposit, in most cases, leaving the original color of the roof intact without further efflorescence occurring. It is superficial and in no way affects the quality or functional properties of the tile.

**Installation:** According to the Tile Roofing Institute loading guidelines, "To achieve a pleasant, random blend of color for your job, care should be taken upon loading to mix the tiles." (Source: 2015 Concrete and Clay Roof Tile Installation Manual). Please consult the Tile Roofing Institute (TRI) Installation guides for application recommendations.
